

Recirculation fan VHV55"

Stay cool with topcool

Name: Recirculation fan VHV55 (variable horizontal ventilator) or Cyclone 55"

Size: 55"

Detail product:

Topcool composite fiber recirculation fan VHV55 provide energy efficient and cost-effective way for recirculation air in dairy application.

Optimum application:

55" composite fiber recirculation fan is the optimum solution for dairymen. This fan offers superior performance and good efficiency. The unique feature of the VHV series offer 4 air fold directional deflectors. The 4 air fold create air pattern of 4 layer of air over the floor. This unique feature traps the animal inside a wave of air. With the optional integrate misting nozzle inside the deflector, you can reduce the expensive heat stress of each cow.

Other environment:

Ideal restrict zone with lower ceiling , for tunnel or cross ventilation. This fan will increase the air velocity in dairy and industrial. Improved air circulation and distribution. Easy to install.

Topcool features:

Housing:

- 1.Made with reinforcement fibber composite high density, durable, sturdy, and corrosion free
- 2.Thicker layer of U.V. protection on composite surface
- 3.Extra layer of resin inside give smooth surface for easy maintenance and cleaning
- 4.Air flow design maximize the efficiency
- 5.4 directional air folds deflector

Propeller:

- 1.Precision bearing assembly with protection seal and special "TOPCOOL" grease
- 2.Blade are made with aluminum alloy 2.5 mm thicker
- 3.Belt: super high efficient moulded

notch model XPA

- 4.Inner belt tensioned are standard with large diameter pulley
- 6.Long belt, can change easy around the paddle "Quick change belt".

Motor:

- 1.Standard motors are totally enclosed, high efficiency
- 2.All motors are designed and rated for years of trouble free operation.
- 3.Quiet operation on all range of speed

Support and frame:

- 1.Built in central I beam steel support, fix inside housing and attach with 4 extra legs, this design provides a strong vertical support that aligns the propeller centered in the orifice for maximum

performance.

- 2.Motor are fix on slider motor base quick attach.
- 3.Stainless steel hardware #304.
- 4.Different solution can be available to mount this fan inside the barn, on steel post, building column or suspended from the ceiling with chain or winch kit (aircraft cable)

Optional accessories:

- 1.Motor 1 phase or 3 phase
- 2.OSHA safety guard
- 3.Thermally protection
- 4.Variable frequency drive (VFD)
- 5.3 line of high pressure nozzle misting system integrate inside the deflector
- 6.Other configuration available on request.
